STRONG THROUGH EDUCATION

LEONARDO DA VINCI
IN LEARNING REGIONS

7 and 8 February 2008 in Kreishaus Borken

Globalisation and a knowledge-related economy require a profound reorganization process of the European economy and an ambitious programme for social and educational systems. General goal is at the moment by means of the Leonardo da Vinci programme

- To improve quality of the general and vocational training systems within the EU,
- To ease the requirements and entry.

Systems need to be highly compatible in order for Europeans to increase their mobility and make use of the great variety of options.

At the same time learning regions need special needs care and innovative educational products. An European innovation transfer makes it possible to improve the quality, transparency and guidance.

Strong through Education Leonardo da Vinci in Learning Regions

The conference will introduce different European educational projects and their products that link the academic world with the regional practical side

- **Transparency** of degrees and certificates
- **Quality** and regional monitoring of education
- **Educational** guidance for lifelong learning

Furthermore the meeting offers a platform for networking with regard to international and regional partnerships for lifelong learning projects.

9.00 a.m. Welcome and Coffee

9.30 a.m. Opening and short introduction of the region

Kreisdirektor Werner Haßenkamp and Hauptgeschäftsführer Handwerkskammer Münster Walter Bourichter.

10.15 a.m. Key note

Prof. Dr. Gerhard Bosch about the „German educational system within the transnational European framework - Are German products good enough“?
